

Add and Verify Your Card in Google Wallet

Before You Begin

Make sure you have the following:

- The Android phone you will use for Google Wallet
- The Google Wallet app installed on the phone
- Internet access
- A secure screen lock configured on the phone
- The physical Fountain Trust Company debit card
- Access to the phone number or other verification method associated with the card

Security reminder

Never provide a verification code, card PIN, password, or other security information to an unexpected caller, text sender, or email sender. Only enter a verification code within the Google Wallet enrollment process you opened yourself.

Add the Card to Google Wallet

Step 1: Open Google Wallet

Open the Google Wallet app on the Android phone.

Step 2: Start Adding the Card

At the bottom of the Google Wallet screen, select:

- 1. Add to Wallet**
- 2. Payment card**
- 3. New credit or debit card**

Tip: The exact screen layout may vary depending on the phone model and version of the Google Wallet app.

Step 3: Capture or Enter the Card Information

Follow the on-screen instructions to add the Fountain Trust Company debit card.

You may be given the option to:

- Use the phone's camera to capture the card information
- Enter the card information manually

Google identifies both camera capture and manual entry as available enrollment methods. If entering the information manually, carefully review each field before continuing.

Tip: Confirm that the card number, expiration date, cardholder name, and any other requested information match the physical card.

Step 4: Save the Card Information

After reviewing the card information, select Save and continue.

Accept the Terms and Complete Verification

Step 5: Review the Issuer Terms

Read the terms presented for the Fountain Trust Company debit card.
Select **Accept** to continue.

Important

Selecting **Accept** indicates agreement with the terms presented on the device. If you do not agree with the terms, do not continue with the enrollment process.

Step 6: Choose a Verification Method

If Google Wallet requests verification, select one of the verification methods displayed on the phone.

Google's instructions state that, when verification is requested, the user should choose an option from the list provided.

The verification methods available to one cardholder may differ from those available to another cardholder. Follow only the choices shown on the phone.

Security reminder

Confirm that any masked phone number or contact information shown on the screen is familiar before requesting a verification code.

Step 7: Enter the Verification Code

If a verification code is sent, enter the code in the designated field within Google Wallet.
Then select the applicable button to continue.

Important

Verification codes are confidential. Do not provide the code to anyone who contacts you by telephone, email, or text message.

Step 8: Confirm the Card Is Ready

Return to the card in Google Wallet.

Confirm that the Fountain Trust Company debit card appears in the wallet and that the setup or verification process is complete.

If Verification Is Not Completed

If the card continues to display a verification prompt:

1. Open Google Wallet.
2. Select the Fountain Trust Company debit card.
3. Follow the verification instructions displayed on the phone.
4. Use only the verification methods presented within Google Wallet.
5. If none of the methods displayed can be completed, contact The Fountain Trust Company at 765-793-2237.

Do not repeatedly request verification codes if the device displays an error or temporary restriction.

Quick Completion Checklist

- ☐ Google Wallet opened
- ☐ **Add to Wallet** selected
- ☐ **Payment card** selected
- ☐ **New credit or debit card** selected
- ☐ Card information captured or entered
- ☐ Card information reviewed
- ☐ **Save and continue** selected
- ☐ Issuer terms reviewed
- ☐ Terms accepted
- ☐ Required verification completed
- ☐ Business debit card displayed in Google Wallet

Security Reminder

Only enter a verification code within a Google Wallet process you initiated. Do not give the code to an unexpected caller, text sender, or email sender. Bank employees should not need to ask you to read a digital wallet verification code aloud.

Set The Fountain Trust Company Debit Card as Your Default Card

1. Open the Google Wallet app.
2. Swipe through your cards and select the debit card you want to use by default.
3. Tap the card.
4. Select Details/Settings
5. Tap Make default for tap to pay.
6. The card will now be used automatically for contactless payments.

Tip: The first card added to Google Wallet becomes the default card until you change it.
